## *Wine Pricing Philosophy*

Here at The Cameron Estate Inn we believe a nice bottle of wine enhances a good meal; and the finer the wine, the more enjoyable your experience. To accomplish this, our wine glasses are designed to increase your sensory experience and help convey the message of the wine. Though the Pennsylvania Tavern Association guideline for a serving of wine is 4 ounces, we prefer the by-the-glass service to follow the standard of filling the glass one-third full. This results in a generous 5.5 oz serving in our over-sized wine glasses. The glass design provides the proper space above the wine to let the aroma and flavors fully develop – enabling a complete bouquet to tantalize your senses.

Many restaurants' pricing of wine is based, at a minimum, on doubling the retail purchase price of the bottle and adding one dollar. However, our pricing model makes the finer cellar selections more affordable. We apply standard markups on wines costing \$25 or less, but, on wines retailing above \$25, we will merely add a \$25 markup regardless of the price.

### *Guide to Food & Wine Pairing*

Generally, lighter-bodied wines pair well with milder flavors. Sweet wines complement spicy foods and full-bodied wines pair best with full-flavored dishes. Grape varietals have varied flavors and aromas, but often wines will enhance your meal if the grape characteristics are similar or complementary to that in the food you are eating. Your server will be pleased to assist your selection either by recommending popular wines, or in bringing you a small taste of our by-the-glass offerings.

Above all, drink what you like with what you want!
